

# Safety Sam

Protecting the one's you love!

**North Carolina 811**  
[www.nc811.org](http://www.nc811.org)

# Rocko, watch out!

Don't dig for your bone near that buried water line.  
The flag will tell you where not to dig.

Mark is ready to dig  
for buried treasure.  
But he knows it's not  
safe to dig near the  
utility flags.

# Emily loves to watch cartoon super heros!

But the real heros are  
the people that call  
811 before they dig.  
They protect us and  
our utilities.

Visit: [www.nc811.org/kids.html](http://www.nc811.org/kids.html) for more 811 kids fun!

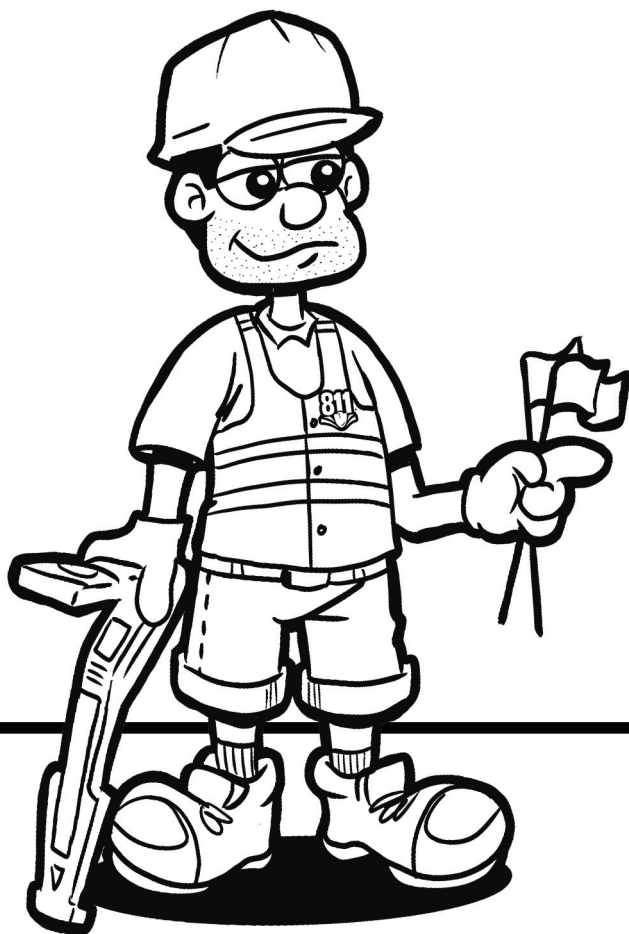

Betty's roses will look great,  
but she better be careful.

Utilities can be just  
below the surface  
even in your backyard.

# Know the utility color codes!

Help Larry the Locator by coloring each utility with the colors he uses to mark them. He will use paint and flags but you can use a crayon or marker.

White  
For where you  
plan to dig

Pink  
Survey Marks

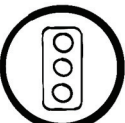

Red  
Electric

Yellow  
Gas

Orange  
Communication  
and Signal Lines

Blue  
Water

Purple  
Reclaimed Water

Green  
Sewer

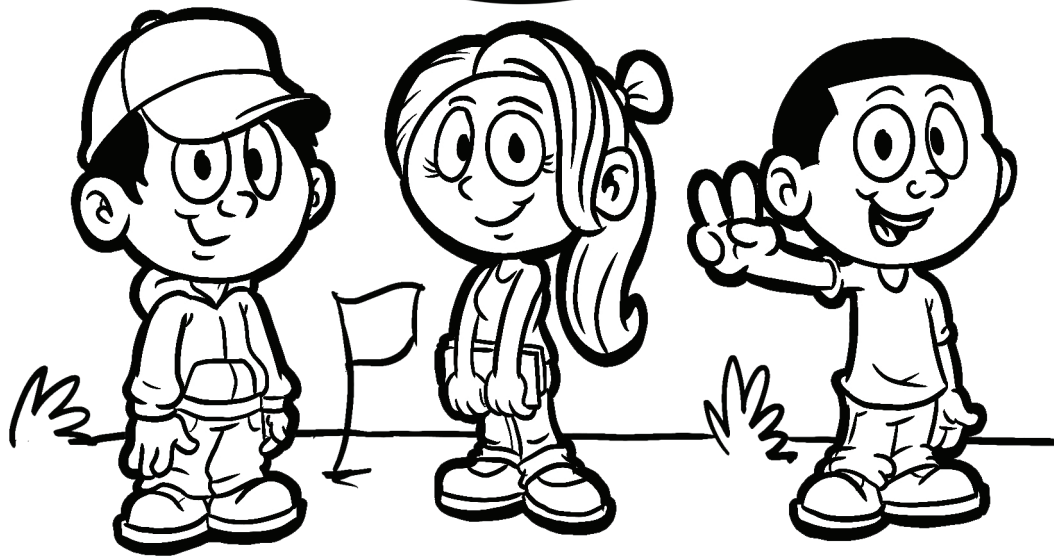

# Bruce better be careful

Bruce wants to move his mailbox, but  
Safety Sam tells him to first call 811 and  
wait 3 days before his digs.
